**Q: Tequila is produced using
what plant?**

el Jimador
TEQUILA

A photograph of a field of blue agave plants. The plants have long, pointed, blue-green leaves with reddish-brown spines. They are growing in a field of low-lying, brownish vegetation. The background is slightly blurred, showing more plants and a bright sky.

A: Blue agave

**Q: The main difference
between tequila and
mezcal is what?**

A: Tequila must use blue agave, while mezcal can use up to 28 types of agaves.

Fun fact: Mexican laws state that tequila can only be produced in the state of Jalisco and limited municipalities in the states of Guanajuato, Michoacán, Nayarit, and Tamaulipas.
